We are a non-profit, federally qualified health center, providing comprehensive health care to the underserved, specializing in individuals with intellectual and developmental disabilities and their families. As such, the recruitment of physicians can be challenging. The Inline Group was able to help us overcome some of these challenges by providing greater exposure, through their marketing strategies, that we would not have been able to accomplish on our own.

Our organization purchased a 1-year subscription with the Inline Group and from the inception the Inline Group has been very professional, attentive and responsive. Our landing page was up within days, we received our first match within the first week and were able to fill 2 positions (Internal Medicine and Pediatrics) in 2 months, resulting in an excellent return on our investment.

Anika Duncan
VP, Account Director

The greatest appeal was the unlimited hires, no placement fees and once our positions were filled, the ability to pause our search and re-open when needed, using the remaining months, at no additional cost.

The Inline Group has proven to be a valuable partner and I highly recommend the Inline Group for your provider recruitment needs.
