

The Inline Group Reference

Borrego Health has used the Inline Group for several months now and has had great success with their services. The Inline Group and our account manager (Joe Valdez and Scott Waters) have been a great resource in improving and expanding our provider recruitment. The Inline Group has provided us with reliable and quality primary care providers to better serve our patients and communities.

They screen numerous candidates based on our changing criteria and offer summarized candidate profiles that match our needs. The staff exhibits great customer service, professional, dependable, and always accessible.

We would highly recommend The Inline Group as a resource for primary care provider recruitment.
