Molly Headd
The Inline Group

Dear Molly:

The growth of LGS Legacy Care has been and will continue to be squarely focused on the quality and volume of medical provider talent which is identified for the regions which meet with our strategic objectives. The Inline Group has consistently delivered high caliber physicians and advanced practice providers to LGS Legacy Care across multiple regions. The communication and service of your team is highly professional and very helpful to ensure we maximize every interaction with the medical professionals provided to us from your team.

Each provider at the point we initiate contact has a thorough and clearly consistent set of expectations of the opportunities we provide. I highly recommend The Inline Group for any healthcare organization who is focused on hiring quality professionals.

All the Best,

Steve
