

## Health Care Center For The Homeless

August 17, 2018

To Whom It May Concern,

It is with full support that I am writing to recommend the services of The Inline Group.

Orange Blossom Family Health made the decision to partner with The Inline Group, to assist with our physician recruiting efforts, due to their innovative business model. They created a new platform for physician recruitment and completely eliminated placement fees, headhunting fees, and advertising fees - and that spoke to us. As an FQHC, we work with a restricted budget. Their fee structure and discounted rates fit the parameters of our budget as well as the scope of our project.

We are excited to report the early success in our partnership as The Inline Group began to send us candidates who had matched our open positions within the first couple of weeks. I am even more ecstatic to report that The Inline Group helped us hire family medicine physician Dr. Bendel who was possibly the best fit we have ever had for our organization proving beyond a doubt that their vetting process and service is second to none. Due to their extensive marketing, we have strong candidates in our pipeline for the remaining available positions and we continue to receive a steady stream of viable candidates to back them up.

Orange Blossom Family Health confidently recommends The Inline Group to our FQHC community, as well as hospitals, clinics, groups, and private practices.

Sincerely,

Bakari Burns, MPH, MBA  
President & CEO
