

**Palmetto Health USC**  
HEALTH CARE PROVIDER  
RECRUITMENT

7 July 2018

Recruiting Colleagues,

I am pleased to provide a reference for The Inline Group. Over the past three years, Palmetto Health has partnered with The Inline Group for sourcing of quality candidates for our open primary care positions.

What has impressed me is their keen eye on the ever-changing world of digital marketing and knowing how to utilize the newest tools. Using robust technology and their innovative approach, they are creating personalized introductions between their clients and candidates. Covering two regions of South Carolina, they have identified and screened over 150 candidates for us.

My team and I have had the pleasure of working with Molly Headd, Director of Client Services, and have found her to be fair, courteous and above all, professional in every aspect. I expect that you would find the same with anyone you would encounter who works for The Inline Group.

If you find yourself needing help with your marketing processes to identify primary care candidates, I highly recommend using The Inline Group.

Sincerely,

Andrew B. Hartsoe, AASPR  
Director, Healthcare Provider Recruitment  
Palmetto Health USC Medical Group
